REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

August 27, 2015

The Board of Directors
Grand Valley Board of Cooperative Educational Services
Grand Junction, Colorado

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Grand Valley Board of Cooperative Educational Services as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Grand Valley Board of Cooperative Educational Services' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Grand Valley Board of Cooperative Educational Services' preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Grand Valley Board of Cooperative Educational Services' internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Grand Valley Board of Cooperative Educational Services as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows, thereof, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of activity—net pension liability, and schedule of activity—employer pension contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Grand Valley Board of Cooperative Educational Services' basic financial statements. The Schedule of Changes in Fiduciary Net Position and Auditor's Integrity Report of the Colorado Department of Education are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Changes in Fiduciary Net Position and Auditor's Integrity Report are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Chadarick, Steinheichner, Davie & Co., P.C.

GRAND VALLEY BOARD OF COOPERATIVE EDUCATIONAL SERVICES

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2015

As management of the Grand Valley Board of Cooperative Educational Services (GVBOCES), we offer readers of the GVBOCES financial statements this narrative overview and analysis of the financial activities of the GVBOCES for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the financial statements.

The GVBOCES is a collaborative, partnership effort between Mesa County Valley School District No. 51 and Colorado Mesa University as an effort to provide career and technical programs to students from both institutions. The GVBOCES was founded in 1994 and student enrollment and programs have increased at a constant rate since the GVBOCES inception.

Financial Highlights

- The liabilities and deferred inflows of resources of the GVBOCES exceeded its assets and deferred outflows of resources at the close of the most recent fiscal year by (\$224,281) (net position). Of this amount, \$767,942 is the net investment in capital assets leaving a negative unrestricted net position balance of (\$992,223).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$514,382.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the GVBOCES basic financial statements. The GVBOCES basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the GVBOCES finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the GVBOCES assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the GVBOCES is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The government-wide financial statements distinguish functions of the GVBOCES that are principally supported by intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the GVBOCES include instructional services, pupil services, general administration services, business administration services, and central support services. The business-type activities of the GVBOCES consist of operations of a restaurant and a law enforcement training facility.

The government-wide financial statements include only the GVBOCES itself, as the GVBOCES has no component units.

The government-wide financial statements can be found on pages 9-10 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The GVBOCES, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the GVBOCES can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The GVBOCES maintains one individual governmental fund, the General Fund, which is considered to be a major fund.

The GVBOCES adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 11-14 of this report.

Proprietary funds. The GVBOCES maintains one type of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The GVBOCES uses enterprise funds to account for its restaurant and law enforcement training facility operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the GVBOCES various functions.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Restaurant and CLETC Enterprise Funds, which are considered to be major funds of the GVBOCES.

The basic proprietary funds financial statements can be found on pages 15-17 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the GVBOCES own programs.

The GVBOCES uses an agency fund to account for resources held for student activities and groups.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 19-33 of this report.

For the year ended June 30, 2015, the GVBOCES adopted the provisions of Statement of Governmental Accounting Standards (GASB Statement) No. 68 – *Accounting and Financial Reporting for Pensions*. This reporting change accounts for the significant change in net position over the year ended June 30, 2014.

Government-wide Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. In the case of the GVBOCES, liabilities and deferred inflows exceeded assets and deferred outflows by \$224,281 at the close of the most recent fiscal year.

GRAND VALLEY BOARD OF COOPERATIVE EDUCATIONAL SERVICES Net Position

	Governmental Activities 2014	Business-type Activities 2014	Governmental Activities 2015	Business-type Activities 2015	Total Activities 2014	Total Activities 2015

Financial Analysis of the Government's Funds

As noted earlier, the GVBOCES uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the GVBOCES governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the GVBOCES financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the GVBOCES governmental fund reported ending fund balance of \$514,382, a decrease of \$39,342 in comparison with the prior year. Unassigned fund balance of \$514,382 is available for spending at the GVBOCES discretion.

The General Fund is the chief operating fund of the GVBOCES. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$514,382. See page 12 of this report for detail.

Proprietary funds. The GVBOCES proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the Restaurant and CLETC Enterprise Funds amounted to \$12,767 as of June 30, 2015, an increase of \$11,160.

General Fund Budgetary Highlights

The differences between the original budget and the final budget were not significant.

Capital Asset and Debt Administration

Capital assets. The GVBOCES investment in capital assets for its governmental and business-type activities as of June 30, 2015 amounts to \$767,942 (net of accumulated depreciation). This investment in capital assets includes land and equipment.

GRAND VALLEY BOARD OF COOPERATIVE EDUCATIONAL SERVICES Capital Assets (Net of Depreciation)

	Governmental Activities 2014	Business-type Activities 2014	Governmental Activities 2015	Business-type Activities 2015	Total Activities 2014	Total Activities 2015
Land	326,431	0	326,431	0	326,431	326,431
Buildings and Building Improvements	0	0	0	0	0	0
Equipment	467,320	0	441,511	0	467,320	441,511
Total Capital Assets	793,751	0	767,942	0	793,751	767,942

Long-term debt. At the end of the current fiscal year, long-term debt consists of future compensated absences and net pension liability. See Footnote E and Footnote F beginning on page 26 for further discussion of the changes in long-term debt.

Requests for Information

This financial report is designed to provide a general overview of the GVBOCES finances for all those with an interest in the GVBOCES finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Business Manager, Grand Valley BOCES at 2508 Blichmann Avenue, Grand Junction, Colorado 81505.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Year ended June 30, 2015

Year ended June 30, 2015	 ····
Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances - total governmental funds	\$ (39,342)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation was more than capital outlay in the current period (\$134,253-108,444).	(25,809)
In the governmental funds, expenditures related to pension obligations are measured by the amount of financial resources used (essentially, the amounts actually paid to the pension plan), whereas in the statement of activities, they are measured on full accrual basis. This is the amount by which pension expense in the statement of activities was more than pension expenditures in the governmental funds.	(250)
In the governmental funds, expenditures for compensated absences are measured by the amount of financial resources used (essentially, the amounts actually paid to employees), whereas in the statement of activities, they are measured as the benefits are earned by employees during the year. This is the amount the liability for compensated absences decreased during the year.	 2,559
Change in net position of governmental activities	\$ (62,842)

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. The Reporting Entity

The Grand Valley Board of Cooperative Educational Services (B.O.C.E.S.) is a local educational service unit organized under the "Board of Cooperative Services Act of 1965" - Colorado Revised Statutes 22-5-101 through 117. The B.O.C.E.S. serves one member school district and one member institution of higher education in western Colorado.

The B.O.C.E.S. is the primary government and has no component units.

2. Government-wide and Fund Financial Statements

The B.O.C.E.S. basic financial statements include both government-wide (reporting the B.O.C.E.S. as a whole) and fund financial statements (reporting the B.O.C.E.S. major funds). Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the later are excluded from the government-wide financial statements. Major governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Government-wide Financial Statements

In the government-wide Statement of Net Position, the governmental activities columns are reported on a full accrual, economic resource basis, which recognizes all long-term assets and deferred outflows of resources as well as long-term debt, obligations, and deferred inflows of resources. B.O.C.E.S. net position is reported in two parts: net investment in capital assets and unrestricted net position.

The government-wide focus is on the sustainability of the B.O.C.E.S. as an entity and the change in the B.O.C.E.S.'s net position resulting from the current year's activities.

Fund Financial Statements

The financial transactions of the B.O.C.E.S. are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self balancing accounts that comprises its assets, liabilities, fund equity, revenues and expenditures/expenses.

The fund focus is on current available resources and budget compliance.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

3. Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives.

The B.O.C.E.S. reports the following major governmental funds:

GOVERNMENTAL FUNDS

General Fund The General fund is the B.O.C.E.S. general operating fund and is used to account for all financial transactions not accounted for elsewhere. Major revenue sources include grants, contracts, and state funding. Expenditures include all costs associated with specific contracts entered into by the B.O.C.E.S.

PROPRIETARY FUNDS

Food Service Fund. The food service fund is used to account for the activities of the restaurant and catering services of the educational unit. The fund is intended to be self-supporting through user charges.

Colorado Law Enforcement Training Center (CLETC) Fund. The CLETC fund is used to account for activities related to the drive track maintained by the educational unit. The fund is supported through annual payments made by three outside government agencies that use the drive track and also by user charges.

The B.O.C.E.S. also report the following fiduciary fund:

Agency (Student Body Activity) Fund This fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations or budgetary accounting. However, the Colorado State Auditor's Office has determined that an annual budget and appropriation be adopted by the Board of Education. See Note A7 for the budget presentation. Assets and liabilities are measured on the accrual basis of accounting.

4. <u>Basis of Accounting</u> and Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

4. Basis of Accounting and Measurement Focus - Continued

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available to finance expenditures of the current period. Expenditures are recognized when the related fund liability is incurred.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Interfund activity is not eliminated in the fund financial statements.

The Proprietary funds use the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred. The proprietary funds are accounted for on a cost of services (capital maintenance) measurement focus. The statement of net position for these funds includes all current and non-current assets and liabilities (net position). Unrestricted net position is the only component of fund equity. The operating statement summarizes cost of services for the period and reflects the change in net position.

5. Budget Adoption Process

In June, the Board of Directors adopts the budget for the following fiscal year. The Board may amend or adopt supplemental budgets during the budget year. Two supplemental budgets were appropriated by the Board for the year ended June 30, 2015, which increased the Enterprise Funds' budgets from \$30,484 to \$40,407 and increased the General Fund budget from \$3,304,667 to \$3,396,429.

6. Budgeted Level of Expenditures

Expenditures may not legally exceed appropriations at the fund level. Administrative control is maintained through the use of detailed line-item budgets. Budgets must be amended at the fund level by the Board of Directors. At year-end, all appropriations lapse in accordance with Colorado statutes.

7. Budgetary Basis of Accounting

Appropriated budgets are adopted by the Board of Directors for all funds. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

7. Budgetary Basis of Accounting - Continued

The following is a presentation of final budget to actual for the Food Service fund for the year ended June 30, 2015.

	1	Final Budget		Actual	Fa	ariance vorable <u>favorable)</u>
Operating revenues	\$	28,800	\$	22,290	\$	(6,510)
Operating expenditures		(30,407)		(31,012)		(605)
Transfers in				8,500		8,500
Change in net position		(1,607)		(222)		1,385
Net position, beginning		1,607		1,607		
Net position, ending	<u>\$</u>		<u>\$</u>	1,385	\$	1,385

Actual expenditures in the Food Service fund exceeded budgeted expenditures for the year ended June 30, 2015, which is a violation of Colorado State Statutes, which require that all actual expenditures are appropriated at the fund level.

The following is a presentation of budget to actual for the CLETC fund for the year ended June 30, 2015.

	Final		Variance Favorable
	Budget	Actual	(Unfavorable)
Operating revenues Operating expenditures Net earnings (loss)	\$ 10,000 (10,000)	\$ 17,225 (5,843) 11,382	\$ 7,225 4,157 11,382
Net position, beginning Net position, ending	<u> </u>	<u>\$ 11,382</u>	<u> </u>

In order to comply with Colorado statutes, a Cash Basis budget and appropriation was adopted for the Agency (Student Body Activity) fund. The following is a presentation of Budget to Actual for the Agency (Student Body Activity) fund for the year ended June 30, 2015.

	Final Budget	Actual	Variance Favorable (Unfavorable)
Beginning cash balance Cash receipts Cash available Cash disbursements Ending cash balance	\$ 58,475 200,000 258,475 200,000 \$ 58,475	\$ 51,589	\$ (6,886) (55,460) (62,346) 75,975 \$ 13,629

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

8. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by B.O.C.E.S. as assets with an initial, individual cost of \$5,000 or more and an estimated useful life of more than one year. Such assets are recorded at historical cost if purchased or constructed and donated capital assets are recorded at their estimated fair market value on the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property, plant and equipment of B.O.C.E.S. are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Equipment	8-30
Vehicles and software	5-7
Computers and office equipment	5

9. Future Compensated Absences

In Governmental Fund Types, the costs for compensated absences are recognized when payments are made to employees. A long-term liability for accrued vacation and sick leave benefits at June 30, 2015, has been recorded in the governmental-wide financial statements, representing the B.O.C.E.S. commitment to fund such costs from the General fund. Payment for any of the accrued benefits will occur in subsequent years and be made from future resources.

10. Related Parties

A substantial amount of the funds for facilities and personnel for the B.O.C.E.S. are currently provided by Mesa County Valley School District No. 51 (the District) and Colorado Mesa University (the University). The District and the University organized the B.O.C.E.S. and each appoints two of the seven Board members, with the other three Board members selected from the community. The District has a contract with the B.O.C.E.S. to provide funding and support.

11. Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

12. Interfund Balances

Due To and Due From Other Funds. During the course of its operations, the B.O.C.E.S. has numerous transactions between funds to finance operations and provide services. To the extent that certain transactions between funds had not been paid or received as of June 30, 2015, balances of interfund amounts receivable or payable have been recorded.

13. Adoption of GASB 68

For the year ended June 30, 2015, the B.O.C.E.S. adopted the provisions of Statement of Governmental Accounting Standards (GASB Statement) No. 68 – Accounting and Financial Reporting for Pensions, an Amendment of GASB Statement No. 27, which replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement.

14. Pensions

B.O.C.E.S. participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE B – DEPOSITS AND INVESTMENTS

At June 30, 2015, the carrying value of deposits with financial institutions was \$104,389. Cash consists of the following:

Cash on hand	\$	870
Cash in demand accounts		104,389
Total cash	<u>\$</u>	105,259

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE B – DEPOSITS AND INVESTMENTS – CONTINUED

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits.

At June 30, 2015, the B.O.C.E.S. cash deposits had a bank balance as follows:

		Bank <u>Balance</u>
Insured deposits Deposits collateralized in single inst	itution pools	\$ 250,000 115,976
	Total deposits	\$ 365,976

State statutes authorize the B.O.C.E.S. to invest in obligations of the U.S. Treasury and U.S. agencies, obligations of the State of Colorado or of any county, school district, and certain towns and cities therein, notes or bonds secured by insured mortgages or trust deeds, obligations of national mortgage associations, certain repurchase agreements, and local government investment pools.

At June 30, 2015, the B.O.C.E.S. had \$9,362 and \$334,740 invested in the Colorado Government Liquid Asset Trust (COLOTRUST) and the Colorado Surplus Asset Fund Trust (CSAFE) respectively, investment vehicles established for local governmental entities in Colorado to pool surplus funds for investment purposes. COLOTRUST and CSAFE operate similar to a money market fund and each share is equal in value to \$1. At June 30, 2015, the approximate market value of the B.O.C.E.S.'s investments is \$344,102. Both COLOTRUST and CSAFE were rated AAAm by Standard & Poor's Corporation.

The total investments are as follows:

COLOTRUST	\$ 9,362
CSAFE	 334,740
	\$ 344,102

Interest rate risk - The B.O.C.E.S. does not have a formal policy limiting investment maturities, other than that established by state statute of five years that would help manage its exposure to fair value losses from increasing interest rates.

NOTE C – MAJOR REVENUES

The B.O.C.E.S. received 59% and 26% of its general fund revenue for the year ended June 30, 2015, from contracts with Mesa County Valley School District No. 51 and with Colorado Mesa University, respectively.

NOTES TO FINANCIAL STATEMENTS

NOTE F - DEFINED BENEFIT PENSION PLAN

General Information about the Pension Plan

Plan Description. Eligible employees of the B.O.C.E.S. are provided with pensions through the School Division Trust Fund (SCHDTF) – a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE F - DEFINED BENEFIT PENSION PLAN - CONTINUED

Benefits Provided. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5% and then multiplied by years of service credit
- The value of the retiring employee's member contribution account plus a 100% match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100% of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50% or 100% on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

Benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments (COLAs), referred to as annual increases in the C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2%, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2% or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2% or the average CPI-W for the prior calendar year, not to exceed 10% of PERA's Annual Increase Reserve for the SCHDTF.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE F - DEFINED BENEFIT PENSION PLAN - CONTINUED

Contributions. Eligible employees and B.O.C.E.S are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, et seq. Eligible employees are required to contribute 8% of their PERA-includable salary. The employer contribution requirements are summarized in the table below:

	For the	For the
	Calendar	Calendar
	Year	Year
	Ended	Ended
	December	December
	31, 2014	31, 2015
Employer Contribution Rate ¹	10.15%	10.15%
Amount of Employer Contribution	(1.02)%	(1.02)%
apportioned to the Health Care Trust Fund as		
specified in C.R.S. § 24-51-208(1)(f) ¹		
Amount Apportioned to the SCHDTF ¹	9.13%	9.13%
Amortization Equalization Disbursement	3.80%	4.20%
(AED) as specified in C.R.S. § 24-51-411 ¹		
Supplemental Amortization Equalization	3.50%	4.00%
Disbursement (SAED) as specified in C.R.S.		
§ 24-51-411 ¹		
Total Employer Contribution Rate to the	16.43%	17.33%
SCHDTF ¹		

¹Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the B.O.C.E.S. is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from B.O.C.E.S. were \$69,767 for the year ended June 30, 2015.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the B.O.C.E.S. reported a liability of \$1,407,908 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2013. Standard update procedures were used to roll forward the total pension liability to December 31, 2014. The B.O.C.E.S. proportion of the net pension liability was based on the B.O.C.E.S. contributions to the SCHDTF for the calendar year 2014 relative to the total contributions of participating employers to the SCHDTF.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE F - DEFINED BENEFIT PENSION PLAN - CONTINUED

At December 31, 2014, the B.O.C.E.S. proportion was .010%, which was a decrease of .002% from its proportion measured as of December 31, 2013.

For the year ended June 30, 2015, the B.O.C.E.S. recognized pension expense of \$70,017. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows	Deferred Inflows
	of Resources	of Resources
Difference between expected and actual experience	\$	\$ 105
Changes of assumptions or other inputs	whenthe	Wildows
Net difference between projected and actual earnings		
on pension plan investments	32,377	NAMES OF THE PARTY
Changes in proportion and differences between		
contributions recognized and proportionate share		
of contributions	Sauthal	134,998
Contributions subsequent to the measurement date	35,213	-
Total	\$ 67,590	\$ 135,103
10441	9 07,570	<u> </u>

\$35,213 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31, 2014:	
2015	(41,944)
2016	(41,944)
2017	(26,933)
2018	8,094
2019	_
Thereafter	_

Actuarial Assumptions. The total pension liability in the December 31, 2013 actuarial valuation was determined using the following actuarial assumptions and other inputs:

Price inflation	2.80 percent
Real wage growth	1.10 percent
Wage inflation	3.90 percent
Salary increases, including wage inflation	3.90 - 10.10 percent
Long-term investment Rate of Return, net of pension	_
plan investment expenses, including price inflation	7.50 percent

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE F - DEFINED BENEFIT PENSION PLAN - CONTINUED

Future post-retirement benefit increases:
PERA Benefit Structure hired prior to 1/1/07;
and DPS Benefit Structure (automatic)
PERA Benefit Structure hired after 12/31/06
(ad hoc, substantively automatic)

2.00 percent

Financed by the Annual Increase Reserve

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with Males set back 1 year, and Females set back 2 years.

The actuarial assumptions used in the December 31, 2013 valuation were based on the results of an actuarial experience study for the period January 1, 2008 through December 31, 2011, adopted by PERA's Board on November 13, 2012, and an economic assumption study, adopted by PERA's Board on November 15, 2013 and January 17, 2014.

The SCHDTF's long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent analysis of the long-term expected rate of return, presented to the PERA Board on November 15, 2013, the target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target	10 Year Expected
	Allocation	Geometric Real Rate of
		Return
U.S. Equity – Large Cap	26.76%	5.00%
U.S. Equity – Small Cap	4.40%	5.19%
Non U.S. Equity – Developed	22.06%	5.29%
Non U.S. Equity – Emerging	6.24%	6.76%
Core Fixed Income	24.05%	0.98%
High Yield	1.53%	2.64%
Long Duration Gov't/Credit	0.53%	1.57%
Emerging Market Bonds	0.43%	3.04%
Real Estate	7.00%	5.09%
Private Equity	7.00%	7.15%
Total	100.00%	

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE F - DEFINED BENEFIT PENSION PLAN - CONTINUED

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.50%.

Discount Rate. The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the fixed statutory rates specified in law, including current and future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Based on those assumptions, the SCHDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the Municipal Bond Index Rate. There was no change in the discount rate from the prior measurement date.

Sensitivity of the B.O.C.E.S. proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
Proportionate share of the net pension liability	\$1,856,455	\$1,407,908	\$1,032,466

Pension Plan Fiduciary Net Position. Detailed information about the SCHDTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE G - OTHER POST-EMPLOYMENT BENEFITS - HEALTH CARE TRUST FUND

Plan Description. The B.O.C.E.S. contributes to the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer healthcare trust administered by PERA. The HCTF benefit provides a health care premium subsidy and health care programs (known as PERACare) to PERA participating benefit recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of the C.R.S., as amended, establishes the HCTF and sets forth a framework that grants authority to the PERA Board to contract, self-insure and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of health care subsidies. PERA issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for the HCTF. That report can be obtained at www.copera.org/investments/pera-financial-reports.

Funding Policy. The B.O.C.E.S. is required to contribute at a rate of 1.02 percent of PERA-includable salary for all PERA members as set by statute. No member contributions are required. The contribution requirements for the B.O.C.E.S. are established under Title 24, Article 51, Part 4 of the C.R.S., as amended. The apportionment of the contributions to the HCTF is established under Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended. For the years ending June 30, 2015, 2014, and 2013, the B.O.C.E.S. contributions to the HCTF were \$3,977, \$4,196, and \$4,483, respectively, equal to their required contributions for each year.

NOTE H – TAX, SPENDING AND DEBT LIMITATIONS

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations including revenue raising, spending abilities and other specific requirements of state and local governments. The Amendment is complex and subject to judicial interpretation. The B.O.C.E.S. believes it is in compliance with the requirements of the amendment. However, the B.O.C.E.S. has made certain interpretations of the amendment's language in order to determine its compliance.

NOTE I – RISK MANAGEMENT

The B.O.C.E.S. is a member of the Colorado School District Self-Insurance Pool (the Pool), which operates as a risk-sharing public entity pool comprised of various school districts and other related public educational entities within the State of Colorado. The Pool provides the B.O.C.E.S. with various types of insurance. During the year ended June 30, 2015, the B.O.C.E.S. paid \$15,679 in premiums to the Pool. In the event of the impairment or insolvency of the Pool, the B.O.C.E.S. may be assessed such amounts as may be necessary to ensure the solvency of the Pool. The likelihood of an event of this type occurring is remote.

The Colorado Compensation Insurance Authority provides worker's compensation insurance coverage. Commercial insurance companies are used to provide coverage for health, life, and other employee insurance programs maintained by the B.O.C.E.S.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

NOTE J – RELATED PARTY SERVICES

The B.O.C.E.S. receives the services of college faculty from Colorado Mesa University for post-secondary class offerings. The expenditures related to these services are included in the financial statements of Colorado Mesa University and amounted to \$2,211,741 for the year ended June 30, 2015.

NOTE K – CHANGE IN ACCOUNTING PRINCIPLE

Effective July 1, 2014, the B.O.C.E.S. retroactively changed its method of accounting for pension contributions and related obligations to conform to GASBS No. 68, *Accounting and Financial Reporting for Pensions, an Amendment of GASB Statement No. 27*. Under the new accounting method, the B.O.C.E.S. accrues a net pension liability related to its participation in a multiple employer cost sharing retirement plan. The effect of the change decreased beginning net position for 2014 by \$1,475,171, from \$1,300,965 to (\$174,206).
